

WALTON TAP EXTRACTORS

REMOVE BROKEN TAPS QUICKLY

Walton precision-built tap extractors are standard equipment in thousands of leading metal working plants where efficiency in production and maintenance work has become a modern science. Costly delays, due to broken taps, are eliminated when the unique Walton tap extractor is employed.

No annealing, drilling or special tools are required. The broken tap is firmly gripped and, without damage to the threads or work, is backed out easily and quickly . . . to speed production and keep down-time to the minimum.

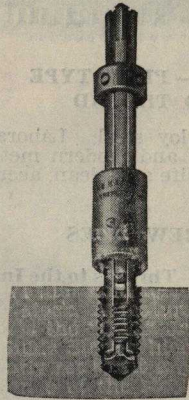

WALTON TAP EXTRACTORS LIFE TIME GUARANTEE

The Walton Tap Extractor (holders, collars, and sleeves) are fully guaranteed indefinitely against breakage. All broken holders, collars and sleeves will be replaced without charge when mailed to The Walton Company, 94 Allyn Street, Hartford 3, Connecticut

3 1/2	±5.00			±.35		

4-Flute style supplied unless otherwise specified.

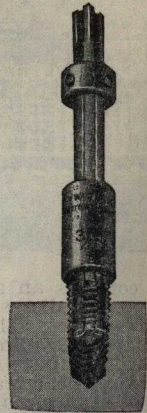

Note: It is important that all orders for Walton Tap Extractors parts should clearly specify the required size and flute style.

Thoroughly remove all chips of the broken tap. Insert the extractor fingers into the flutes of the broken tap, pushing them gently but firmly into position.

Push the holder down until it touches the broken tap. Slide the sleeve down until it touches the work. (Both are important.)

Apply a tap wrench to the square end of the holder. Twist forward and backward a few times to loosen, then back out the broken tap.

Tap Extractor Sets

The Walton line includes six popular Production Sets which enable the mechanic or operator to be equipped with the right size and style extractor to meet his tapping operation requirements.

The Production Sets are packaged in sturdy and attractively finished metal boxes, and contain the six assortments listed below.

Mfrs. List Each					
Set No.	Set No.	Set No.	Set No.	Set No.	Set No.
M-1	M-2	M-3	M-11	M-13	M-15
±\$9.00	±\$9.25	±\$9.75	±\$19.75	±\$20.10	±\$24.85

3-Flute style supplied for sizes marked thus (*). The 4-Flute style extractors will be supplied on all orders for sets, unless otherwise specified, except as noted in Sets Nos. M-11, M-13 and M-15. Orders for ten or more sizes of extractors, which do not constitute a standard set, will also be shipped in a metal box upon request. The single unit price will prevail.

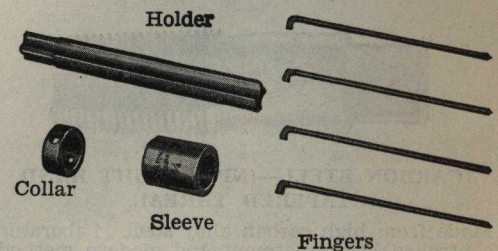

Pipe Tap Extractors

Walton Tap Extractors, designed to fit Pipe Taps, are standard sizes and styles listed below. Sizes and styles not listed are considered specials and will be made upon order.

Pipe Tap Size Ins.	Mfrs. List, Each—		Mfrs. List, Each—	
	Tap Extractors—4-Flute	5-Flute	Extra Fingers—4-Flute	5-Flute
1/8	±\$1.70	±\$1.85	±\$0.12	±\$0.12
1/4	±2.00	±2.15	±.15	±.15
3/8	±2.45	±2.70	±.20	±.20
1/2	±2.75	±3.10	±.25	±.25
3/4	-----	±3.80	-----	±.25
1	-----	±4.50	-----	±.30

Note: Orders for Pipe Tap Extractors and extra fingers must clearly specify "Pipe Tap", and must indicate whether 4-flute or 5-flute style is required.

Tap Extractor Parts

Parts lost may be replaced. Prices on application. Spare finger prices are shown in the price lists for Walton standard tap extractors and pipe tap extractors.
